

Six-Project Calibration Summary

- status: SIX_PROJECT_CALIBRATION_PASS
- mean_score: 42
- median_score: 42.0
- minimum_score: 42
- mean_coverage: 38
- validity_rate: 1.0
- critical_findings: 0
- high_findings: 36
- mean_run_to_run_variation: 0

Low coverage is reported separately from quality. These runs are baseline and grader calibration evidence, not

Dominant Root Causes

- source-unavailable historical decisions (source data)
- schematic bootstrap renderer output (deterministic renderer)
- registration unsuitable for exact overlay (comparison/registration)
